Priority number(s):

Abstract of JP2001102168

PROBLEM TO BE SOLVED: To provide a thin organic EL display.

SOLUTION: A second substrate with formed control circuit is arranged on the internal surface of a first substrate with formed display. The display is sealed by the first and second substrates, and need not a cap 10 as in the prior art. Accordingly, the display which is thinner and more light-weight than the prior art display is realized.
